front dama	ge; a wł	nite Honda Civic be	ge; a white Honda fi aring Oklahoma tag 6, with rear-end da	HBK745 wit	ida tag Al66TJ, with rear and h rear and front damage; and a

According to the witness on scene, identified by Florida license as Morgan Viesins, advised that the Honda CRV was having difficulties maintaining in its lane before the crash and almost collided with her vehicle. Witness advised the Honda CRV rear-ended the Honda Fit at full speed and did not see any brake lights engaged. The driver of the Honda Fit was identified by her name and date of birth as Zina Torres. Ms. Torres advised she was stopped behind the Honda Civic when she was rear-ended by the gray Honda CRV. Ms. Torres also advised the rear impact pushed her car forward causing her car to rear end the Honda Civic. The driver of the Honda Civic was identified by his Oklahoma license as Keagan Hodges. Mr. Hodges advised that due to the rear impact, his vehicle collided with the back of the Lexus. The driver of the Lexus was identified by her Florida license as Anita Saluja. Ms. Saluja advised she was stopped in traffic for a red light. Ms. Saluja advised she heard a crash followed by a rear-end impact.

The driver of the Honda CRV was identified by his Florida license as Christopher Kornicki (DEFENDANT.) The DEFENDANT advised he had no recollection of how the crash occurred. The DEFENDANT advised he was coming from an unknown beach park and was on his way to drop off his friend (passenger of Honda CRV) at her house. While speaking with the DEFENDANT, I observed he had pinpoint pupils, his eyelids were droopy, he was very confused of the place, time, and sequence of events that led to the crash. The DEFENDANT also advised he smoked "half a joint of weed" and took one (1) 15miligram tablet of oxycodone in the morning (pre and post Miranda.)

Due to the DEFENDANT's driving pattern, not braking when approaching stopped vehicles (slow reflexes), the indicators observed while interviewing him, and his admission to taking drugs earlier in the morning, the DEFENDANT was read his Miranda Rights and was asked to perform a few Standardize and non-Standardize Field Sobriety Exercises. The DEFENDANT agreed. Due to the DEFENDANT's physical impairments on both legs, the DEFENDANT was allowed to lean against the patrol vehicle to perform the exercises.

The first exercise that was asked of the DEFENANT to perform was the Horizontal Gaze Nystagmus, HGN. Horizontal and Vertical nystagmus were not present. Lack of convergence was not present.

The second exercise that was asked of the defendant to perform was the Finger-to-Nose exercise. The DEFENDANT performed as follows:

1. Eyes do not remain close

Filing 224171533

- 2. Bring head forward to finger
- 3. Missed tip of finger to tip of nose in all six (6) counts
- 4. Did not bring hand back down after touching tip of nose

VS
